

An International Student Symposium

23 July to 3 August 2012

*THE INAUGURAL*

## NUS Design Summer Program

@ NATIONAL UNIVERSITY OF SINGAPORE

Registration  
Deadline  
Extended

### About DSP2012

An international symposium for innovative, broad-minded & passionate students engaged in the engineering of solutions to address the grand challenges in our society for the 21<sup>st</sup> century and beyond.

Unique opportunity to interact closely with undergraduates from a number of East Asian, South Asian, European, and North American universities

Invited professors and local leaders from the technology, commercial and education sector will also be co-teaching with NUS professors.

For more information, please visit:

[http://www.eng.nus.edu.sg/ugrad/dcc\\_summer\\_programme/index.html](http://www.eng.nus.edu.sg/ugrad/dcc_summer_programme/index.html)

### Program

A 2 week summer school at NUS with plenary sessions, workshops, local site visits, cultural immersion + 1 week optional Rest & Recreation in Asia (e.g. Beijing, Bombay or other South-East Asian Countries) .

### Objectives

Ideal platform for international delegates to learn and appreciate the cultural and social dimensions of design from an Asian perspective

Apply principles of sustainability and frugal engineering in designs addressing real-world challenges in Asian cities

### Applications

Application is now opened until all vacancies are filled. Applications will only be accepted on the basis of official nomination by the home university.

Due to the limited number of vacancies, students are encouraged to submit their applications early to avoid disappointment. Application outcome will be communicated by end of May 2012 and payment of registration fees must be made by early June 2012. A duly completed application form must reach the organiser before mid-May through your university.

### Registration Fee

SGD\$300 (fees includes accommodation in student hostel, lunches & 2 tea-breaks for the 10-day program, transportation for local field visits & program materials)
